

VetLine 4-hole veterinary air scaler, 3 KaVo/Sonicflex-compatible tips

VetLine 4-hole air scaler for veterinary use, non-spray version, with 3 KaVo/Sonicflex-compatible tips included.

Available

SKU: HCP234

Categories: Veterinary Handpieces

Description

The **VetLine 4-hole air scaler for veterinary use** is an air-driven handpiece designed for **scaling and dental hygiene procedures** in veterinary practices and clinics.

Equipped with a **standard 4-hole connection**, it connects to a compatible veterinary dental unit hose and works with an operating frequency of **5800-8000 Hz**. The **non-spray version**, without built-in spray, is easy to manage and suitable for workstations where irrigation is managed externally.

The kit includes **3 KaVo/Sonicflex-compatible tips**, allowing immediate use in veterinary oral hygiene procedures. Compact and functional, VetLine is suitable for integrating scaling treatment into Tecnomed veterinary dental units and other compatible veterinary dental workstations.
