AMIGEL hand sanitising gel is a ready-to-use, no-rinse solution in a 250ml pump bottle for quick and practical hand hygiene.

Available

SKU: DIS0250G

Categories: Professional Equipment

Description

AMIGEL hand sanitising gel is a ready-to-use solution developed for thorough cleansing of the hands and forearms. Its practical formula is designed for fast, effective application, making it suitable for professional environments where hygiene, ease of use and frequent application are essential.

When used with an automatic wall-mounted dispenser, AMIGEL helps reduce the risk of cross-contamination and supports safer hygiene management in shared and high-traffic settings.

Apply 3ml to dry hands and rub thoroughly for 30 seconds until fully distributed. No rinsing is required after use.
