

Stainless steel double-jointed handpiece holder arm for Easy Tray

Stainless steel handpiece arm with double joint for 5-tray Easy Tray medical trolley.

Available

SKU: DE1003X.5M
Categories: Handpiece Holders & Accessories

Description

The **Easy Tray handpiece arm** in stainless steel with double joint is an optional accessory designed **exclusively for 5-tray Easy Tray trolleys**, providing practicality and accessibility when using dental handpieces and instruments in clinical environments.

Fully made of stainless steel, it ensures durability, hygiene and easy cleaning, making it suitable for daily professional use. The double joint allows wide freedom of movement and precise positioning, improving operational ergonomics and facilitating access to instruments during clinical procedures.

This solution enhances the versatility and functionality of the 5-tray Easy Tray trolley, adapting it to specific professional requirements.

Key features

- Handpiece arm compatible **only with 5-tray Easy Tray medical trolleys**
