Description

Blue Piezoelectric Scaler Handpiece – HW-3H Woodpecker, EMS Compatible, Autoclavable

The **blue HW-3H Woodpecker piezoelectric scaler handpiece** is a high-quality instrument, compatible with the EMS system and designed to provide reliable use in dental procedures.

The handpiece is **autoclavable** and highly resistant to high temperatures and pressure, without risk of cracking or deformation.

Its **lightweight and ergonomic design** allows the operator to work comfortably, helping to reduce hand fatigue during use.

Compatible with the **EMS connection system and EMS tips**, the blue HW-3H Woodpecker handpiece is a practical and functional solution for integration with EMS-compatible equipment.

Technical features HW-3H A BL Woodpecker handpiece scaling unit

Version	Scaler handpiece
Tip compatibility	Ems®
Coupling compatibility	EMS®
Color handpiece	Blue

Optic fibre	No
