

Blue HDI Woodpecker handpiece for scaling unit, Satelec compatible

Blue handpiece for Woodpecker power scaling unit, Satelec compatible

Available

SKU: M17SB
Categories: Scaler Handpieces

Description

The **blue HDI Woodpecker piezoelectric scaler handpiece** is a high-quality instrument designed to provide reliability and consistent performance during dental treatments.

The handpiece structure is **autoclavable** and withstands high temperatures and pressure without risk of cracking or deformation. This helps ensure long service life and safe use over time.

Its **lightweight and ergonomic design** allows the operator to work comfortably, helping to reduce hand fatigue even during prolonged sessions.

Compatible with the **Satelec connection system and Satelec tips**, the blue HDI Woodpecker handpiece offers versatility and can be easily integrated into the equipment already in use in the dental practice.
