

Blue HDI Woodpecker handpiece for scaling unit, Satelec compatible

Blue handpiece for Woodpecker power scaling unit, Satelec compatible

Available

SKU: M17SB

Categories: Professional Equipment, Scaler Handpieces

Description

The Woodpecker Blu HDI scaler handpiece is a high-quality piezoelectric device, designed to ensure reliability and consistent performance in every dental procedure.

Its structure is fully autoclavable and highly resistant to heat and pressure, preventing cracks or deformations and guaranteeing long-term durability.

Thanks to its lightweight and ergonomic design, it allows the practitioner to work comfortably while reducing hand fatigue, even during long sessions.

Compatible with the Satelec connection system and tips, it provides excellent versatility and integrates smoothly into existing dental equipment.

Technical features Woodpecker Blu HDI scaler handpiece.
