

70 cm extension arm for OKKIO camera, dental white colour

Extension arm for OKKIO articulated arm, 70 cm long, for wall and dental unit application.

Available

SKU: FK935B

Categories: OKKIO Mounts

Description

70cm arm extension designed for use in combination with the OKKIO articulated camera arm, ideal for increasing the range of movement and improving the positioning of the imaging system. It allows a **flexible wall-mounted configuration**, keeping the workstation organized, functional and stable during clinical activity.
