Description

Conservative dentistry scaler tip, EMS RT1 and Woodpecker P4D compatible , is a diamond-coated tip for conservative dental procedures, designed for targeted work during canal location and corono-radicular preparation.

The shape of the tip allows precise action on the treatment area, supporting controlled, minimally invasive procedures during cavity preparation.

Specifications

- Compatible with EMS RT1 and Woodpecker P4D
- Suitable for use with EMS and Woodpecker compatible piezoelectric scalers
- For professional dental use
