Description

High speed handpiece controller 2/3 ways.

Benchtop controls are best for accurate adjustment of air pressure, turbine speed and spray rate (with spray type handpieces). Speed is best controlled by means of a progressive action foot control. Our benchtop control units are designed to work with all types of high speed handpiece currently on the market.

Air One is a control unit for sprayless high speed handpieces, complete with filter, pressure regulator and foot control.
