Description

Air One control for BORDEN turbine 2/3-holes .

Benchtop controls are best for accurate adjustment of air pressure, turbine speed and spray rate (with spray type handpieces). Speed is best controlled by means of a progressive action foot control. Our benchtop control units are designed to work with all types of high speed handpiece currently on the market.

Air One is a control unit for sprayless high speed handpieces, complete with filter, pressure regulator and foot control.
