Diamond-coated half spheric tip. 45° left, for removing the dental caries, it will not hurt the adjacent teeth, Woodpecker-EMS compatible, overstock.

Available

SKU: PG072D

Categories: EMS - Woodpecker

Description

Diamond half-ball 45° right tip compatible with Woodpecker and EMS, scaler tip designed for targeted dental caries removal during conservative dental procedures.

The diamond-coated surface allows precise action on the treatment area, supporting controlled removal of decayed tissue while helping preserve the integrity of the surrounding healthy structures.

Specifications

- Compatible with Woodpecker-EMS
- Suitable for use with EMS-compatible piezoelectric scalers
- For professional dental use
