Categories: Without Dryer

Description

Portable Medical Air Compressor for 1 Unit – Quiet, Compact and Reliable for Dental Applications

Key phrase: portable medical air compressor for 1 unit / compressore medicale 1 riunito portatile

The **Tecnomed Silent portable medical air compressor for 1 unit** delivers clean and consistent compressed air with a flow rate of **70 L/min**, making it ideal for dental surgeries, clinics and mobile applications. Designed without a dryer and equipped with **oil-free technology**, it ensures excellent reliability, hygiene and ease of use in any professional environment.

Portable and Space-Saving Design

Compact and lightweight, this unit can be easily moved or installed in confined spaces. It's the perfect solution for mobile dental clinics, temporary workstations or practices that require flexibility without compromising performance.

Exceptionally Quiet Operation

The sound-insulated system provides remarkably low noise levels, creating a calm and comfortable workspace. This allows dental professionals to maintain focus while improving the overall patient experience.

Oil-Free, Hygienic Air Supply

The **oil-free head** delivers dry, pure and uncontaminated air, fully compliant with medical and dental standards. With no oil residues, maintenance is reduced and air quality remains consistently high, ensuring safe operation for all dental instruments.

Efficient Performance Without a Dryer

This **dryer-free configuration** is ideal for standard or occasional use, where additional dehumidification is not required. It provides a stable airflow of 70 L/min with reliable output and low energy consumption.
