

Endo tip for scaler, Mectron D3 compatible

Endo tip for lateral thermal condensation of gutta-percha. Mectron D3 compatible

Available

SKU: PG071M

Categories: Mectron - Woodpecker

Description

Endo tip for scaler compatible with Mectron D3, designed for lateral thermal condensation of gutta-percha.

Its slim profile supports canal procedures where controlled and precise condensation of filling material is required during endodontic treatment.

Specifications

- Compatible with Mectron D3
- Suitable for use with Mectron-compatible piezoelectric scalers
- For professional dental use
