Description

The Endodontic green contra-angle Ivory Silk Line 64:1 blind, without spray, has been developed to meet the specific requirements of endodontic treatments and root canal preparation.

With a rotational speed of 625 rpm, the rotary head with button and with ceramic bearings, is compatible with all bur systems and can be rotated in six positions to easily reach any part of the oral cavity.

Without spray and without optical fiber, the comfortable and ergonomic grip added to the lightness of only 58 gr and the perfect balance of the instrument make this contra-angle highly reliable and practical for everyday endodontic treatments.
