SKU: SL421C

Categories: Professional Equipment

Description

The Green Ivory Silk Line 2:1 blind contra-angle compatible KaVo, spray, is our 2: 1 reduction contra-angle for Prophylaxis without optical fiber.

Like all the Ivory Prophylaxis line, it has been designed with the best of microtechnology to offer you excellent benefits.

With removable head in order to facilitate cleaning and maintenance, allows you to optimize the investment costs in instrumentation, since in a single contra-angle it is possible to apply different heads, both normal and reducing and the reduced size of the head allows access to the most sensitive and unreachable areas.

In addition, the mechanical transmission elements are designed with an extremely low tolerance threshold so that they can transmit the power developed by the micromotor without energy dispersion and without emitting noise or vibrations.

All this, accompanied by an impeccable and elegant design, make this contra-angle an extremely beautiful and indispensable piece for your work.

Technical features Green Ivory Silk Line 2:1 blind contra-angle compatible KaVo:

Removable head	YES
Optical fiber	NO
Transmission	2: 1
Rotor bearings	In Ceramics

Indications	Prophylaxis
Stop mechanism	Button
Type of Spray	Internal
Compatibility	Intramatic Universal
Rotation speed	20.000
Head Rotation	NO
Diameter of the Head	9.5mm
Head Height	11.6mm
Diameter of the Bur	2.334/2.350 mm
Length of the Bur	21.95mm
Weight	79gr
Autoclavable	YES
Type of Lubrication	Oil
