

90° endo tip for Gutta-Percha removal in long canals

90° endodontic tip indicated for gutta-percha removal in long or hard-to-reach root canals. Suitable for DTE, Satelec and NSK ultrasonic scalers.

Available

SKU: PG122

Categories: Satelec - DTE - NSK

Description

90 degrees endo tip for scaler, indicated for gutta-percha removal in long or hard-to-reach root canals. The angled shape supports access during root canal retreatment when standard tips are less suitable.

Specifications

- 90° angled endo tip
- Suitable for long or hard-to-reach root canals
- Suitable for DTE, Satelec and NSK ultrasonic scalers
- For professional dental use
