Ivory angle head, 1:1, standard use, compatible KaVo 68LH 69LDN and MK-dent LS9011 LS9111

Shipping expected in approximately 15 days

SKU: SL611C

Categories: KaVo - Ivory - Mk-dent

Description

The **Ivory 1:1 contra-angle head compatible with KaVo 68LH 69LDN and MK-dent LS9011 LS9111** is designed to provide precision, accessibility and long-term durability during prophylaxis and endodontic procedures.

Designed for **Ivory Silk Line** contra-angles, its compact dimensions allow easier access to posterior quadrants and preparation sites, improving instrument handling in more difficult-to-reach areas.

Compatible with all **Ivory** and **KaVo®** contra-angles, it offers versatility and ease of use. The **Rotostop** locking system allows the head to be removed and replaced quickly, adapting it to the required reduction ratio according to the procedure.

This modularity allows simple and immediate maintenance, reducing downtime. When technical service is required, the damaged head can be replaced in a single movement, helping maintain operating continuity.

The **wear-resistant front bearing with integrated reinforcement bushing** absorbs mechanical stress during use, ensuring rotor concentricity and smooth, quiet and stable operation over time.

Technical features Ivory 1:1 contra-angle head KaVo MK-dent:

Indications	Standard
Ratio	1:1
Locking mechanism	Button
Head diameter (mm)	9,5
Head height (mm)	11,6
Bur diameter (mm)	2,334/2,350

Bur length (mm)	21.95
Type of lubrication	Oil
Autoclave resistant	Yes, 135°C
Max speed (RPM)	40.000
Packing weight appr. (g)	120
Certification	CE
