

Ivory angle head, 2:1, standard use, KaVo and MK-dent compatible

Ivory angle head, 2:1, standard use, compatible KaVo 67LH 67LDN and MK-dent LS9012 LS9112

Shipping expected in approximately 15 days

SKU: SL621C
Categories: KaVo - Ivory - Mk-dent

Description

The **Ivory 2:1 contra-angle head compatible with KaVo and MK-dent** is designed to provide precision, durability and accessibility during prophylaxis and endodontic procedures.

Mounted on **Ivory Silk Line** contra-angles, its compact dimensions allow easier access to posterior quadrants and preparation sites that are more difficult to reach.

Compatible with all **Ivory** and **KaVo®** contra-angles, it ensures versatility and easy replacement. The **Rotostop** locking system allows the head to be removed and replaced quickly and securely, adapting it to the required reduction ratio according to the type of procedure.

The modular structure allows fast and practical maintenance, making it possible to replace a damaged head without interrupting work.

The **wear-resistant front bearing with integrated reinforcement bushing** absorbs stress during use and maintains rotor concentricity, ensuring stability, quiet operation and precision over time.

Technical features Ivory 2:1 contra-angle head compatible with KaVo and MK-dent:

Indications	Standard
Ratio	2:1
Locking mechanism	Button
Head diameter (mm)	9,5
Head height (mm)	11,6
Locking mechanism (mm)	Push Button

Bur diameter (mm)	2,334/2,350
Bur length (mm)	21.95
Type of lubrication	Oil
Autoclave resistant	Yes, 135°C
Max speed (RPM)	20.000
Packing weight appr. (g)	120
