Description

The **Ivory 2:1 contra-angle head compatible with KaVo and MK-dent** is engineered for precision, accessibility and durability in **prophylaxis and endodontic** applications. Designed for use with **Ivory Silk Line contra-angles**, its **compact size** allows simplified access to posterior quadrants and preparation sites.

Fully compatible with **all Ivory and KaVo® contra-angles**, it provides great versatility and ease of replacement. The **Rotostop locking system** allows quick and secure head changes across the prophylaxis range, depending on the desired reduction ratio.

Its **modular design** enables **fast, efficient maintenance**, allowing immediate replacement of a damaged head without interrupting workflow. The **front anti-wear bearing** with **integrated reinforced bushing** absorbs operational stress, ensuring perfect rotor concentricity and long-term stability.
