Categories: KaVo - Ivory - Mk-dent

Description

The **Ivory 3:1 contra-angle head KaVo 201 X compatible** combines precision, reliability and versatility in a compact, durable design. Designed for use with Silk Line contra-angles, it is ideal for prophylaxis, endodontic and surgical procedures requiring smooth control and accuracy.

With a **3:1 gear ratio**, it ensures controlled power delivery up to **10,000rpm**, maintaining stable and efficient performance. The **rotostop locking system** allows fast and secure head replacement, ensuring maximum productivity. It is **fully compatible with all Ivory and KaVo® contra-angles**, offering complete interchangeability.

The **anti-wear front bearing** with integrated reinforcement bushing absorbs stress during use, maintaining perfect rotor concentricity and extending the lifespan of the device. Its robust construction enables quick, easy maintenance and long-term reliability.
