Shipping expected in approximately 15 days

SKU: SL620X

Categories: KaVo - Ivory - Mk-dent

Description

Ivory 3:1 contra-angle head compatible with KaVo 201X is designed to provide precision, reliability and versatility in a compact and resistant format, ideal for use with **Silk Line** contra-angles.

The **3:1 transmission ratio** allows controlled speed management up to **10.000rpm**, ensuring smooth and consistent movement during use. This configuration makes it suitable for prophylaxis, endodontic and surgical procedures requiring stability and operating control.

The **rotostop** locking system allows quick and secure head replacement, helping make instrument management more efficient during daily work.

Compatible with **Ivory** and **KaVo®** contra-angles, the head offers high interchangeability and can be easily integrated into existing instrumentation.

The **wear-resistant front bearing with integrated reinforcement bushing** absorbs stress during use, helping preserve rotor concentricity and extend the service life of the device.

Thanks to its resistant structure and simple, fast maintenance, the **Ivory 3:1 contra-angle head compatible with KaVo 201X** is a professional solution for users looking for consistent performance, precision and practical operation.

Technical Specifications

Indications	Surgery
Motion Type	Standard
