

## Ivory angle head, up-down 0.4 mm 3.5/4 mm, comp. KaVo 3LDSY-L3Y

Ivory angle head, up-down 0.4 mm 3.5/4 mm manual, endodontic use, KaVo compatible 3LDSY-L3Y

**Available**

**SKU:** SL633Y

**Categories:** KaVo - Ivory - Mk-dent

### Description

The **Ivory up-down contra-angle head compatible with KaVo** is designed to provide precision, reliability and ease of use during prophylaxis and endodontic procedures.

Designed for **Silk Line** contra-angles, it ensures optimal access even to posterior areas and more complex preparation sites, supporting more practical instrument handling during clinical work.

Its compact dimensions and **Rotostop** locking system allow quick and secure head replacement, ensuring operating continuity and ease of use.

Compatible with all **Ivory** and **KaVo®** contra-angles, it is a versatile solution that can be easily integrated into the daily workflow.

The **wear-resistant front bearing with integrated reinforcement bushing** reduces stress during use and preserves rotor concentricity, ensuring long service life. The technical structure allows quick and simple maintenance operations without interrupting clinical activity.

Technical features **Ivory up-down contra-angle head KaVo compatible**.
