

Ivory angle head, up-down 0.4 mm 3.5/4 mm, comp. KaVo 3LDSY-L3Y

Ivory angle head, up-down 0.4 mm 3.5/4 mm manual, endodontic use, KaVo compatible 3LDSY-L3Y

Available

SKU: SL633Y

Categories: KaVo - Ivory - Mk-dent

Description

The **Ivory up-down contra-angle head KaVo compatible** delivers precision, durability and ease of use for professional prophylaxis and endodontic procedures. Designed for Silk Line contra-angles, it ensures easy access to posterior quadrants and preparation sites.

Thanks to its compact design and **rotostop locking system**, the head can be quickly removed or replaced across the entire prophylaxis line. It is **fully compatible with all Ivory and KaVo® contra-angles**, offering outstanding versatility and workflow continuity.

The **anti-wear front bearing** with integrated reinforcement bushing absorbs operational stress, maintaining perfect rotor concentricity and long-term reliability. Its design allows quick and efficient maintenance without interrupting work.

Choosing the Ivory up-down angle head means enhancing ergonomics, precision and operational efficiency with a component built for lasting professional performance.

Technical features **Ivory up-down contra-angle head KaVo compatible**.
