Available on request

SKU: SL681C

Categories: KaVo - Ivory - Mk-dent

Description

Compatible KaVo L80 80LD contra-angle head 1:1 – Ivory

The **Ivory compatible KaVo L80 / 80LD head** is designed for dental contra-angle handpieces with interchangeable head systems.

With a **1:1 transmission ratio**, it provides direct and controlled bur rotation for precise restorative and finishing procedures.

Equipped with a **push-button chuck for FG burs Ø1.6 mm**, it allows quick bur replacement and smooth operation up to **40,000 rpm**.

It is suitable for **finishing restorations, contouring occlusal surfaces after composite curing and pre-polishing**, as well as **caries excavation using tungsten carbide FG burs**.

This **compatible KaVo L80 head** offers a reliable replacement solution for **KaVo INTRA L80 / INTRAlux 80LD contra-angle handpieces and equivalent systems**, allowing the head to be replaced without changing the entire handpiece.
