

Ivory coupling for Bienair turbines, electrified

Ivory Silk Line coupling for Bienair Unifix turbines, electrified, 6-way

Available

SKU: C30LB

Categories: Turbine Couplings

Description

The Ivory Coupling for Bienair turbine is the ideal connection for Bien-Air® Unifix turbine, combining lightweight design, full electrification, and ergonomic freedom. Designed for **6-hole systems**, it ensures optimal air, water, and power delivery during clinical procedures.

Its **360-degree rotation** enables smooth and unrestricted movements, reducing wrist fatigue and improving handling. Weighing just **30g**, this coupling offers excellent balance when attached to the handpiece—perfect for long procedures.

The **electrified design** allows full support for LED lighting built into compatible turbines, providing **bright and focused illumination** for the working area.

Constructed with durability and performance in mind, the C30LB is a reliable and efficient upgrade for any dental practice using **Bien-Air Unifix** systems.

Technical features Ivory Coupling for Bienair turbine

Rotation	360°
Illumination	Electrified
Compatibility	Bienair® Unifix
Connection	4 vie
Spray regulation	No
Weight	30 gr.

Autoclavable	No
