

Ivory coupling for KaVo turbines, with LED and spray adjustment

Ivory Silk Line coupling for Kavo® Multiflex® dental turbines, with LED light, 6-way and spray adjustment

Available

SKU: C31LK

Categories: Turbine Couplings

Description

Dental Turbine Coupling – Ivory Silk Line C31LK, Kavo Multiflex LED Compatible, 6 Holes, 360° Rotation, Adjustable Spray

The **Ivory Silk Line C31LK dental turbine coupling** is engineered to deliver precision, reliability, and lightweight performance. Fully compatible with **Kavo Multiflex LED connections**, this 6-hole coupling ensures a stable connection and optimal airflow during every procedure.

Its **360-degree rotation system** offers complete freedom of movement, helping clinicians maintain control and comfort even during long treatments. This ergonomic flexibility reduces hand strain and improves handling in all working positions.

The **adjustable water spray** allows the operator to fine-tune the cooling effect depending on clinical needs, ensuring better visibility and patient safety. The built-in **LED light** provides constant, high-intensity illumination for over **50,000 hours**, enhancing visibility across the entire treatment area.

Weighing just **31g**, the C31LK is exceptionally lightweight. Its minimal weight contributes to perfect balance when attached to the handpiece, reducing operator fatigue and improving precision.

Whether you're working in a dental clinic, private practice, or surgical setting, the **Ivory Silk Line coupling** offers a perfect blend of innovation, durability, and user comfort—making it a smart investment for modern professionals.

Technical features

Rotation	360°
----------	------

Illumination	Led
Compatibility	Kavo® Multiflex®
Connection	6 ways
Intensity of Light	25.000 lux
Voltage	(vdc): LED / 3.3-3.8
Spray Regulation	Yes
Weight	31 gr
Autoclavable	No
