**Categories:** Professional Equipment

### Description

The Ivory Neo Line 1:1 blue contra-angle KaVo compatibility, spray head, is our Contra-angle with 1: 1 transmission for Prophylaxis without optical fiber.

Like all the Ivory Prophylaxis line, it has been designed with the utmost care and the best of microtechnology to offer you excellent benefits and facilitate your work. With removable head to facilitate cleaning and maintenance, allows you to optimize the investment costs in instrumentation, since in a single contra-angle it is possible to apply different heads, both normal and reducing and the reduced size of the head allows access to the more sensitive and unreachable areas.

In addition, the mechanical transmission elements are designed with an extremely low tolerance threshold so that they can transmit the power developed by the micromotor without energy dispersion and without emitting noise or vibrations.

All this, accompanied by an impeccable and elegant design, make this contra-angle an extremely beautiful and indispensable piece for your work.

Technical features Ivory Neo Line 1:1 blue contra-angle KaVo compatibility
