

Ivory Silk Line 1:1 fiber optic blue contra-angle, spray head comp. KaVo

Ivory Silk Line 1:1 fiber optic blue contra-angle for prophylaxis, Intramatic coupling, internal spray, Kavo compatible head

Available

SKU: SL411L

Categories: Contra-Angles handpieces

Description

The **blue contra-angle Ivory Silk Line 1:1 fibre optic compatible with Kavo and head spray** is our prophylaxis contra-angle with **direct 1:1 transmission** and **integrated optical fibre**, designed to provide maximum precision, brightness and comfort in daily practice.

As part of the **Ivory Prophylaxis Line**, it combines refined engineering and advanced microtechnology to deliver exceptional balance and reliability. The **removable head** simplifies cleaning and maintenance, allowing the use of different head types — both standard and reduction — on the same contra-angle, optimising costs and workflow.

Its **compact head** ensures better access to delicate or hard-to-reach areas. The **high-purity glass light conductor** minimises refraction, providing exceptional brightness and a shadow-free working field for maximum visibility.

The **high-precision mechanical transmission** has extremely low tolerances, eliminating vibration, noise and energy loss. This ensures smooth, quiet and reliable performance during all prophylaxis procedures.

The Ivory Silk Line 1:1 blue contra-angle can be **thermo-disinfected and sterilised in an autoclave up to 135°C**, ensuring hygiene and long-lasting durability.

Technical features Ivory Silk Line 1:1 fiber optic blue contra-angle compatible KaVo:

Removable head	YES
Optical fiber	YES
Intensity of Light	40,000 Lux

Transmission	1: 1
Indications	Prophylaxis and restorative dental procedures
Stop mechanism	Button
Type of Spray	Internal
Compatibility	Intramatic Universal
Rotation speed	40.000
Head Rotation	NO
Diameter of the Head	9.5mm
Head Height	11.6mm
Diameter of the Bur	2.334/2.350 mm
Length of the Bur	9–34mm
Weight	79gr
Autoclavable	YES
Type of Lubrication	Oil
