

Ivory Silk Line fiber optic turbine, Nsk coupling, 3-hole spray

Ivory Silk Line fiber optic turbine, standard head, Nsk coupling, 3 spray holes

Available

SKU: T501LN

Categories: Optic fibre

Description

High Speed Handpiece Ivory Silk Line Nsk Connection T501LN

The Ivory Silk Line High Speed Handpieces represent the new generation of Dental Turbines “Made in Europe”.

The T501LN is our Nsk connection Dental Turbine; in Steel and Titanium thanks to its high precision technology is one of our prides. Its perfect balancing made with components in alloy aluminum, guarantees maximum silence and safety. The power of 23 watt, its rotor with ceramic bearings, its incredible lightness and the Optical Fiber that illuminates the field of work up to 40,000 lux make this turbine a “must have” that you cannot miss.

Like all Ivory silk line dental turbines, the T501LN also has the innovative Ivory Fast Oil lubrication system that allows you to lubricate any of our turbines from the front side with a single adapter and leave the internal rotor, properly manufactured, always perfectly lubricated in order to significantly increasing its durability and reducing repair costs and maintenance errors.

Technical features High Speed Handpiece Ivory Silk Line Nsk Connection

Type of head	Standard
Stop mechanism	Push Button
Type of Spray	3 nozzles
Weight	48 gr

Material	Titanium and Steel
Coupling Type	NSK®
Maximum rotation per minute	345.000
Power	23 watt
Rotor bearings	Ceramics
Optical fiber	Yes
Intensity of Light	More than 40.000 lux
Fast Oil System	Yes
Autoclavable	Yes
Air pressure	2.8
Diameter of the head	12,5 mm
Height of the head	13,1 mm
Drill Diameter	1.59-1.60 mm
Drill Length	10-25 mm
Type of Lubrication	Oil/ Grease
