

# Ivory Silk Line led pneumatic micromotor, internal spray, 23,000 rpm

Ivory pneumatic micromotor. 6-way LED coupling, Intramatic. Internal spray, max. speed 23,000 rpm. Reversing ring

**Available**

**SKU:** M714L
**Categories:** Air Micromotors

## Description

The **Ivory Silk Line LED air micromotor 23,000 rpm with internal spray** proves that “micro” does not necessarily mean small.

Despite its compact size, the innovative vane rotor design delivers a **torque level comparable to an electric version**, while ensuring **greater reliability and reduced maintenance requirements**.

The integrated LED light provides **uniform illumination of the entire operating field**, while the speed can be easily adjusted up to 23,000 rpm via the control ring at the base. This allows practitioners to perform a wide range of procedures with **maximum precision and ergonomic comfort**.

The **stainless steel body** ensures long-term durability and enables **autoclave sterilisation up to 135°C**, meeting the highest hygiene and safety standards required in clinical environments.

Technical features Ivory Silk Line led pneumatic micromotor 23,000 rpm

| | |
|---|---|
| Version | Air driven |
| Compatibility | 6 way |
| Light source / Voltage (VDC) | Led / 3.5-3.8 |
| Type of spray | Internal |
| Rotation speed (rpm) | 5,000 – 23,000 |
| Power | Air |
| Speed adjustment | Yes |

| | |
|---|---|
| Reverse rotation | Yes |
| Handpiece rotation | No |
| Air consumption (2.5/3.9 bar) | 50/66 |
| Noise level | ? 70dB |
| Handpiece weight (g) | 130 |
| Handpiece diameter (mm) | 20 |
| Type of lubrication | Oil |
| Autoclave resistant handpiece | Yes max 135°C |
