

Ivory Silk Line Turbine, blind, Midwest 4-way coupling, 3 spray holes

The Ivory Silk Line S504M is a high-speed dental turbine handpiece with a Midwest® 4-way coupling.

Shipping expected in approximately 15 days

SKU: S504M

Categories: High-speed handpieces

Description

The **Ivory Silk Line S504M** is a high-speed dental turbine handpiece with a **Midwest® 4-hole coupling**, designed for professional use in the dental practice.

The steel body, standard head, push-button locking and 3-nozzle spray make this a blind turbine — compact, with no built-in illumination.

Long-lasting durability

The handpiece is fitted with **ceramic bearings**, for smooth rotation, quiet operation and long-lasting durability. Maximum rotation speed is **355,000 rpm**.

Simplified maintenance

Maintenance is simplified by the **Ivory Fast Oil system**, which lets you lubricate the turbine from the front with a single adapter, keeping the rotor perfectly lubricated at all times. This extends the turbine's service life and reduces maintenance errors and repair costs.

Main technical features

- Product code: S504M
- Product type: high-speed dental turbine handpiece
- Line: Ivory Silk Line
- Type of coupling: Midwest® 4-hole
- Type of head: Standard
- Illumination: none (blind turbine, no optic fibre)
- Casing material: Steel

- Locking mechanism: Push-button
- Type of spray: 3 nozzles
- Type of bearings: Ceramic
- Maximum rotation speed: 355,000 rpm
- Power: 23 W
- Head diameter: 12.5 mm
- Head height: 13.1 mm
- Handpiece weight: 58 g
- Type of lubrication: Oil/grease
- Medical device
