

## MotoPex DTE wireless endodontic micromotor – Woodpecker

MotoPex DTE wireless endodontic micromotor - Woodpecker with wireless apex detector.

**Available on request**

**SKU:** MM19APX

**Categories:** Endodontic micromotor

### Description

---

#### MotoPex DTE-Woodpecker wireless endodontic micromotor: Innovation and Precision for Your Practice

The MotoPex DTE is a state-of-the-art wireless endodontic motor designed to provide precise, real-time control with advanced technology, featuring an integrated apex locator and dynamic torque control. Ideal for professionals seeking high performance and reliability.

This compact and user-friendly device is equipped with a brushless high-performance motor, ensuring super-quiet operation and extended durability. The 6:1 mini contra-angle head, rotatable 360°, with only 8 mm in diameter and 9.7 mm in height, provides excellent visibility even in the most challenging areas, enhancing treatment effectiveness, especially in complex cases.

#### Key Features and Advantages:

- Intuitive, large OLED display for clear readability.
- User-friendly interface for quick function selection.
- Super mini contra-angle head, autoclave sterilizable to prevent cross-contamination.
- 2000 mAh lithium battery for extended autonomy.
- Automatic reverse function to prevent file fractures.
- 10 programmable settings and 30 pre-set files for increased versatility.
- Compatible with all file systems on the market.

#### Technical Specifications MotoPex DTE-Woodpecker wireless endodontic micromotor:

- Adjustable torque between 0.4 – 0.5 Ncm and variable speed from 100 to 1200 rpm.
- Measurement mode with apex locator (EAL).

- Clockwise (CW) and counterclockwise (CCW) rotation modes, ideal for calcium hydroxide injection.
- Reciprocating mode (REC) with adjustable angles from 20° to 400°, modifiable in 10° increments.
- Autoreverse mode (ATR) with adjustable speed (rpm), torque (Ncm), and forward angle settings.
- Autoclavable contra-angle head for enhanced hygiene and safety.

The MotoPex DTE is the perfect choice for professionals looking for precision, reliability, and ease of use in a single advanced device, streamlining daily work in the dental practice.
