Available

SKU: PG105

Categories: Periodontal inserts

Description

Perio tip scaler PG105.

Tecnomed Italia inserts for periodontal treatments are extremely thin and able to enter even deep pockets easily, enabling you to achieve excellent and painless results in radicular debridement.

They are also ideal for removing tartar from tight interdental spaces and touching crowns.

The reduced oscillations generated by the low power settings needed for these tips makes treatment with them particularly pleasant for the patient.

Their subgingival spray system eliminates biofilm fragments more effectively.

Left-oriented tip for deep subgingival scaling and molar drilling.

Compatibility Perio tip scaler PG105:

- Satelec H2L;
- DTE P2LD;
- NSK P25L.
