Categories: Periodontal inserts

Description

Perio tip for Sine Wave Drive scaler RT.

Tecnomed Italia inserts for periodontal treatments are extremely thin and able to enter even deep pockets easily, enabling you to achieve excellent and painless results in radicular debridement.

They are also ideal for removing tartar from tight interdental spaces and touching crowns. The reduced oscillations generated by the low power settings needed for these tips makes treatment with them particularly pleasant for the patient.

Their subgingival spray system eliminates biofilm fragments more effectively.

Titanium perio tip for drilling and curved root walls.

Compatible

- Woodpecker P50R;
- EMS PSR;
- NSK/E P21RE.
