Shipping expected in approximately 20 days

SKU: DE700EP
Categories: Veterinary dental carts

Description

The **Airo pneumatic veterinary dental cart** is designed to provide a practical and efficient mobile workstation for veterinary dentistry procedures, keeping instruments organised and easy to manage.

Made from quality materials, the Airo cart ensures **strength, reliability and continuity of use** in the daily activity of veterinary practices and clinics.

The water spray supply is managed through a **dedicated tank**, ensuring operating autonomy, while connection to a compressor is required for use. The simple and intuitive controls, operated by hand and foot, make instrument management easier during treatment.

The cart is equipped with a **DCI style syringe and 2 4-way instrument hoses** for compatible pneumatic instruments. The **progressive foot pedal** allows the operator to adjust instrument speed according to the pressure applied, providing greater control during procedures.
