

## Built-in kit V3 DTE-Woodpecker scaler+ HD-7L led handpiece, Satelec comp.

Power scaling unit DTE built-in, Satelec led compatible, complete kit

**Available from 16/12/2025**

**SKU:** AG055SL

**Categories:** Integrated Scalers, Professional Equipment

### Description

The **V3 DTE-Woodpecker Built-in Scaler Kit + HD-7L Handpiece** is the ideal solution for integrating a high-quality scaler directly into the instrument tray of your dental unit, ensuring excellent performance, reliability, and precision in everyday clinical applications.

Thanks to its compatibility with Satelec® tips and the LED HD-7L handpiece, this kit provides versatility that allows you to handle a wide range of dental treatments, from routine hygiene procedures to more complex endodontic operations. The optical fiber integrated into the handpiece ensures perfect illumination of the operational area, enhancing visibility and precision during procedures.

#### Key features and advantages:

- **Universal compatibility:** The kit is compatible with all Satelec® tips, allowing immediate and unrestricted use in various clinical situations.
- **HD-7L LED Handpiece:** Equipped with integrated LED lighting, it provides a clear and detailed view of the operational field, essential for precise and accurate work.
- **Clinical versatility:** With six tips included in the kit (2x GD1, GD4, GD2, PD1, ED1) and four files, it is ideal for handling a wide range of applications, from tartar removal to endodontic preparation, improving treatment efficiency.
- **Reliability and precision:** The included torque wrench and endodontic key ensure a secure attachment of the tips and precise, reliable operation.

#### Technical specifications:

- **Tip compatibility:** Satelec®
- **Connection compatibility:** Satelec® LED cord
- **Power supply:** 24VAC
- **Ultrasonic frequency:** 28kHz +/- 3kHz

- **Handpiece weight:** 57 g
- **Control board dimensions:** 75 x 56 x 37 mm

The **V3 DTE-Woodpecker Scaler Kit** is a reliable partner for all dental professionals looking to integrate a high-performance and versatile scaler into their dental unit, ensuring high standards of quality and functionality in both general and specialized treatments. With its advanced features and easy installation, it's a valuable addition to any dental practice.
