

Scaling tip for scaler, compatible DTE GD3, NSK G5

Scaling tip for scaler compatible with DTE GD3 and NSK G5, indicated for supragingival and subgingival calculus removal in all quadrants.

Available on request

SKU: PG065

Categories: Satelec - DTE - NSK

Description

Scaling tip for scaler compatible with DTE GD3 and NSK G5 is designed for professional scaling treatments and for the removal of supragingival and subgingival calculus.

The shape of the tip allows use in all quadrants, supporting access to interproximal and subgingival areas during routine prophylaxis procedures.

Specifications

- Compatible with DTE GD3 and NSK G5
- Suitable for use with compatible DTE and NSK piezoelectric scalers
- For professional dental use
