

Scaling tip for scaler, EMS compatible P, Woodpecker G3

Scaling tip for supragingival and subgingival tartar removal in all quadrants. Compat. EMS P, Woodpecker G3

Available

SKU: PG063

Categories: EMS - Woodpecker

Description

The scaling tip for scaler compatible with EMS P and Woodpecker G3 is designed for professional scaling treatments and for the removal of supragingival and subgingival calculus.

The shape of the tip allows use in all quadrants, helping the operator reach interproximal and subgingival areas during routine prophylaxis procedures.

Specifications
