Description

VetLine Standard Blind Turbine

The **VetLine standard blind turbine** with 4-hole connection and push-button chuck reaches up to 380,000 rpm with a single-jet spray system. Without fiber optics and equipped with durable steel bearings, it ensures precision, long-lasting reliability, and consistent performance. Designed for veterinary use, it provides comfort, operational safety, and robustness during daily procedures. An essential tool for professionals who require dependable instruments in their practice.

Key features:

- Friction grip
- 4-hole connection
- Max speed 380,000 rpm
- Push-button chuck
- Single-jet spray
- Code: HCP118
