

Tecnomed 1-way laboratory turbine, without spray

1-way dental laboratory turbine without spray, equipped with ceramic bearings, with a maximum speed of 330.000rpm.

Available

SKU: HCP11

Categories: Control Boxes

Description

The **HCP11 1-way turbine without spray** is designed to provide the dental laboratory with a practical, compact and reliable instrument for daily precision work. Its maximum speed of 330.000rpm, ceramic bearings and low declared noise level make it an effective solution for finishing, modelling and adjusting dental prosthetic workpieces made of ceramic, porcelain and zirconia.

Feature	Technical data
Turbine code	HCP11
Water spray	No
Bearing type	Ceramic
Turbine connection	1-way Ø internal 4mm
Maximum speed	330.000rpm
Operating pressure	2.5–2.8bar
Air consumption	35L/min
Chuck diameter	1.6mm
Maximum bur length	25mm
Sterilisable at 135°C	No
Sound pressure	?45dB
Weight	87g

Feature	Technical data
Handpiece dimensions	Ø17mm×L125mm
Warranty	12 months
