Description

High Speed Handpiece Ivory Silk Line Midwest Connection – **discontinued – 1 piece available**

The Ivory Silk Line High Speed Handpieces represent the new generation of Dental Turbines “Made in Europe”.

The S504M is our Dental Turbine with Midwest connection or rather “the turbine that does not need presentations”! Although well known throughout the world for the Midwest connection, in Ivory we have brought to this product some important technical innovations that make the S504M Turbine Ivory Silk Line one of the best Midwest Turbines in the market.

In steel, silent as no other, with its rotor with perfectly balanced ceramic bearings and thanks to the components in aluminium and its small head, it is manufactured thinking on the needs of your daily work.

In addition, like all Ivory Silk Line dental turbines, the S504M also has the innovative Ivory Fast Oil Lubrication system that allows you to lubricate any of our turbines from the front side with a single adapter and leave the internal rotor, specifically manufactured, always perfectly lubricated in order to significantly increasing its durability and reducing repair costs and maintenance errors.

Technical features High Speed Handpiece Ivory Silk Line Midwest Connection

Type of head	Standard
Stop mechanism	Push Button
Type of Spray	3 nozzles
Weight	58 gr

Coupling Type	Midwest®
Maximum rotation per minute	345.000
Power	23 watt
Rotor bearings	Ceramics
Optical fiber	No
Fast Oil System	Yes
Autoclavable	Yes
Air pressure	2.8
Diameter of the head	12,5 mm
Height of the head	13,1 mm
Drill Diameter	1.59-1.60 mm
Drill Length	10-25 mm
Type of Lubrication	Oil/ Grease
