Description

Free-standing Wek Light Metasys water decontamination system is the ideal solution to maintain optimal hygiene in the water lines of dental units, safeguarding both patients and instruments from potential contamination.

Designed to prevent biofilm formation and ensure maximum cleanliness of the pipelines, the WEK Light eliminates the risk of bacterial growth and unpleasant odors, enhancing the safety and efficiency of dental treatments.

Key Features / Benefits:

- **Automatic dosage control:** Ensures precise delivery of the decontaminating solution, optimizing effectiveness without waste.
- **Maintenance-free:** Requires no complex maintenance; the only task needed is replacing the decontaminant solution cartridges when depleted.
- **Constant protection:** Keeps water lines in a state of maximum hygiene, preventing biofilm formation and extending the lifespan of your dental equipment.
- **Regulatory compliance:** Designed to meet current hygiene and safety standards, providing quality assurance for any dental practice.

Technical Specifications:

- **Certification:** CE 0044
- **Installation type:** Floor
- **Dosage system:** Automatic
- **Maintenance:** No maintenance required, only cartridge replacement
- **Compatibility:** Suitable for any dental unit

- **Dimensions:** Compact for easy integration into the practice.

The WEK Light Water Decontaminator by Metasys floor model is your reliable partner for a safer and compliant work environment.
