

HW-3H Woodpecker white handpiece for scaling unit, EMS compatible

White handpiece for Woodpecker power scaling unit, EMS compatible

Available

SKU: M16A
Categories: Scaler Handpieces

Description

The **HW-3H Woodpecker piezoelectric scaler handpiece** is a professional instrument designed to deliver reliable and consistent performance during ultrasonic scaling procedures. Manufactured with a robust structure and resistant materials, it is suitable for daily use in dental practices requiring precision, durability and operational safety.

The handpiece surface is **autoclavable** and withstands high temperatures and pressure, maintaining its integrity even after repeated sterilisation cycles. This helps preserve the efficiency of the device over time and supports high hygiene standards during clinical use.

Thanks to its **lightweight and ergonomic design**, the HW-3H Woodpecker handpiece fits comfortably in the operator's hand, ensuring a stable and secure grip. Its balanced shape helps reduce hand fatigue during prolonged use and allows greater control during procedures.

The handpiece is **compatible with EMS connection systems and inserts**, making it easy to integrate with existing dental equipment. This compatibility makes it a practical and versatile solution for oral hygiene treatments, prophylaxis and dental procedures requiring piezoelectric instruments.

Reliable, resistant and functional, the **HW-3H Woodpecker scaler handpiece** is a professional choice both as a replacement part and as a new handpiece to add to existing equipment. It is designed to provide quality, operating comfort and consistent performance.

Technical features.

Version	Scaler handpiece

Tip compatibility	Ems®
Coupling compatibility	EMS®
Color handpiece	White
Optic fibre	No
Light intensity (lux)	/
Ultrasonic frequency	28KHz +/- 3KHz
Ultrasonic transducer type	Ultrasonic
Dimensions (lxØ mm)	117 x 18
Handpiece weight (g)	48
Cord length (meters)	/
Autoclavable	Yes
Warranty	12 months
CE	0197
