Categories: Scaler Handpieces

Description

Piezoelectric Scaler Handpiece HW-5L LED by Woodpecker – EMS Compatible, Autoclavable

The **HW-5L LED scaler handpiece by Woodpecker** is a high-quality, **EMS®-compatible** piezoelectric instrument designed for durability, performance, and operator comfort. Built to **withstand high temperatures and pressure**, it is fully **autoclavable** without risk of cracking or deformation.

Its **lightweight and ergonomic design** ensures excellent handling, reducing hand fatigue even during long procedures. Ideal for ultrasonic scaling, prophylaxis, and periodontal care.

Equipped with an **integrated LED light**, the HW-5L handpiece provides clear, focused illumination of the working area, enhancing precision and clinical safety.

The handpiece is fully **compatible with EMS® connection systems and tips**, making it an easy addition to most dental units and workflows that already rely on EMS standards.

Reliable, efficient, and built to last, the HW-5L LED is a smart upgrade for any modern dental practice.

Technical features.

Version	Scaler handpiece
Tip compatibility	Ems®

Coupling compatibility	EMS® LED
Color handpiece	White
Optic fibre	Yes
Light intensity (lux)	7.000
Ultrasonic frequency	28KHz +/- 3KHz
Ultrasonic transducer type	Ultrasonic
Dimensions (lxØ mm)	100 x 20
Handpiece weight (g)	52
Cord length (meters)	/
Autoclavable	Yes
Warranty	12 months
CE	0197
