

Woodpecker UDS-E ultrasonic scaler,EMS compatible, with tank

Woodpecker benchtop power scaling unit with tank, EMS compatible

Available from 11/05/2026

SKU: SCR602

Categories: Tabletop Scalers

Description

The Woodpecker UDS-E ultrasonic scaler is a versatile and high-performance solution for dental hygiene, offering advanced features for a wide range of clinical applications.

Equipped with an intuitive control panel, it allows easy selection of Scaling, Endo, and Perio functions, adapting to various treatment needs. The ergonomic and lightweight handpiece ensures excellent visibility and a comfortable grip, enhancing precision and reducing fatigue during procedures.

Key strengths and features:

- Compatibility with EMS® inserts, provided with the device, for immediate versatility in clinical applications.
- Tabletop device with an independent water dispenser, allowing it to be placed anywhere in the clinic and easily connected to an electrical outlet.
- Stability ensured by anti-slip rubber feet, with the option to mount on a lamp post using the convenient tray (code TR50T).
- Ergonomic handpiece, autoclavable at 135°C, that absorbs vibrations and facilitates cleaning.
- Two included dispensers with capacities of 350 ml and 500 ml, equipped with waterproof seals and level indicators.

Who it is for: The UDS-E scaler is ideal for dental practices looking for a compact, flexible, and easy-to-use device that can handle various treatments such as tartar removal, endodontic procedures, and periodontal care. It is suited for dentists who need high-performance equipment that is easy to position and manage while minimizing sterilization and maintenance time.

Technical specifications:

- Insert compatibility: EMS®

- Power supply: 24VAC-220/240V-50/60Hz
- Ultrasonic frequency: 28kHz +/- 3kHz
- Handpiece weight: 48g
- Unit weight: 1.13 kg
- Dimensions: 230 x 175 x 245 mm
- Includes: 8 compatible EMS® inserts, 2 dispensers, handpiece, foot pedal, autoclavable insert holder.
