

Cabinets

Our range features top quality materials and simple designs for maximum versatility. Tecnomed cabinets are superbly ergonomic and designed to make the lives of working dentists easier. Made from robust, electro-galvanised sheet steel in a uniform, 10/10 thickness, these cabinets are quick and easy to clean and designed to stop dust and debris building up in hollows and cracks. We offer a range of cabinets for children's operating rooms, with doors aerographed with colourful cartoons to match Dentronica's Kids and Pretty dental units. These graphics maintain their original colours even after many cleaning cycles. Worktops are in scratchproof yellow glass.

Cabinet for children's operating room

Cabinet in 10/10 galvanised steel sheet, RAL 1023. Worktop in scratchproof glass, RAL 1023.
